* The above 2019-2020 data is taken from Star Renaissance Math and Reading beginning of the year and middle of the year benchmark testing. Due to the school shut-downs during the Covid-19 pandemic, we were unable to complete the end of the year testing in 2020. The state of Texas also made the decision that year to not proceed with mandated STAAR testing for any grades. Based on the data collected through the middle of the year, we anticipate that we would have met or exceeded our campus goals. Upon the return of STAAR accountability rating in 2021-2022, we were rated as a straight "A" campus by the state of Texas.
