Values

We are committed to:

- *Focusing on the whole student.
- *Supporting school-wide collaboration.
- *Achieving high standards—raise the bar, never give up, recognize success and reach potential.
- *Creating a safe and caring school environment.

Based on these pillars, we are committed to being a Professional Learning Community (PLC). Student learning is our primary focus and we closely monitor student achievement. We work collaboratively to analyze data that measures student progress which leads to continued improvement and success.

What has Alisal done to support the PLC process?

2. Created grade level collaborative teams.
3. Implemented a common time in every grade level to improve communication and connections with students.
4. Implemented school wide data based decision making.
5. Reviewed process of developing and implementing master schedule to provide collaborative planning time for teachers.
6. Modified school plan to support measurable student achievement goals for all.
