ASIT Procedures

Triage - Quickly look through your caseload one intervention at a time
- Place a checkmark next to students making adequate progress and add "making progress" with the date on SIT Findings
- Circle students that are not progressing
- Add students that are currently 1.5 years or more on the charts under the appropriate headings
  - Yes if making adequate progress
  - No if not making adequate progress
- Be watchful of students who have potential to be Exited based on criteria

Data Dig
- Go back to students not making progress and dig deeper
  - Is there a usage issue? Attendance issue? Behavior? Why might the student be struggling?
  - Lexia - Looking at minutes to units ratio (5:1 preferred, but 10:1 possible at times)
  - Feel free to discuss with your teammates near you
  - Enter findings on SIT Findings

Group Problem Solving (GPS)
- Each team member is responsible for a different data site
- Discuss as SIT concerns from data findings and problem solve the appropriate NEXT STEPS which should also be added to SIT Findings in red
