

Istation Letter Knowledge Subtest Data Kindergarten

Students in kindergarten are showing a significant increase in their knowledge of letters from the beginning of the year to the end of the year. Students take the test at the beginning of September and take the end of the year assessment at the beginning of April. During the 2019-2020 school year, end of the year data is based on the March 2020 assessment as the building closed for the fourth quarter of the year because of Covid. When our kindergarteners began school in the fall of 2020, one third of the kindergarten students had chosen a completely virtual option. For the students that were onsite, we had to pivot to virtual instruction multiple times during the year as a school because of close contact for Covid.
