Should any of the concerns be school-wide, the Guiding Coalition, the HOM Team or the Safety Team will bring the concern to SIT in order to receive a timeline and plan for School-wide problem solving. This could include budget items which will be reflected in the annual budget process with the BOE. Emergencies or traumatic events engage the TIG team and resources will be assigned outside of this process.

After two interventions and data collection (approx. 12 weeks) a **Pathway day** can be scheduled with our **MTSS team**. Parents will be invited to participate in this meeting. A goal will be set and more resources will be assigned to help the teacher with this intervention. (Such as OT, PT, Speech, additional intervention, possible testing)

Michelle Hildreth and **Lori Patton** will coordinate with the **Safety Team** to address this situation.
