

Excellence is our plan, by learning all we can.

BUSH ELEMENTARY SCHOOL'S VISION STATEMENT

At Bush Elementary School we commit ourselves to creating and maintaining a school that educates all learners by building on the strength of our students, staff, parents, and community members.

This will be accomplished through a unified focus on Learning, Pride, and Community.

Learning

Education is the key to success.

Everyone should use technology effectively.

Everyone can learn and progress toward the essential outcomes for their grade.

We will base instructional decisions on student data.

Teachers will utilize differential instruction to meet the educational needs and learning styles of all students.

Collective Commitment

We are committed to using student data to drive our instructional decisions as we differentiate instructional strategies to optimize student learning.

Hornet Pride

Everyone will have achievable educational goals.

All students will be actively involved in their learning.

All staff, students, and visitors are entitled to a safe and caring learning environment.

Students will work respectfully with other students and teachers.

Collective Commitment

We are committed to providing a safe and caring learning environment for all.

Community

Students are the first priority of teachers, parents, and community members.

The parent is a child's first teacher.

Everyone should be a responsible decision maker.

Teachers, students, parents, and community members share in the responsibility for the success of our school and community.

Collective Commitment

We will encourage students, parents, and community members to be active participants in our students' learning.

BE GREAT. GRADUATE.
