Subject: FW: Huge Appreciation

Greetings BBS! I'm sharing a message one of our parents sent below ... sending a huge heartfelt shout out to Ms. Pea, Mrs. Caballero, Mrs. Swope, and Mrs. Bradley! What the parent sees in their child is direct evidence of BBS PLC work and our collaborative spirit and collective greatness. Every child is truly everyone's child at BBS! We could insert anyone of your names in the message below as you all are having a tremendous impact on getting our students Kindergarten Ready!

Subject: Huge Appreciation

Good morning,

I just want to reach out and appreciate all of the work that you are doing for literacy and numeracy in SBISD and for [REDACTED]!

I have been blown away by all that my daughter is learning this year in PreK and how much it aligns with the work that we are doing in K-5. I love getting to see her virtual teachers teach when we have had to be at home together. She has loved each one of her teachers, starting with Mrs. Bradley this year. I have enjoyed the way that she imitates reading moves when she is at home. She loves to state the name of the author and illustrator just like Ms. Pea! It is the best! She will randomly practice her letter sounds out loud and this morning she wanted to grab a book to teach Mrs.

Swopes how to start at the beginning! I love the excitement she has had every day to be in school with Mrs. Caballero's class and I know she will be excited to go back.

It has been a strange year (you don't often expect for your child to have so many wonderful preK teachers!), but your curriculum is so well aligned to each other and to the work of the district. You are all absolutely amazing and you are doing great things for Literacy and Numeracy in SBISD. I see it (online and reflected in what my daughter has internalized) and I appreciate it for her and for all of the kids you teach!

Thank you so much!
