Pre-pandemic Math Growth of Students with Disabilities

The chart shows a cohort of students with disabilities over time. The Math MAP Winter growth percentile is the measure. The bars and trend lines show the percent of students meeting or exceeding the mean MAP winter growth percentile. This is one example of how we were measuring progress with our gap closing goals since each cohort is a small group that can change significantly based on students moving in/out of the school.

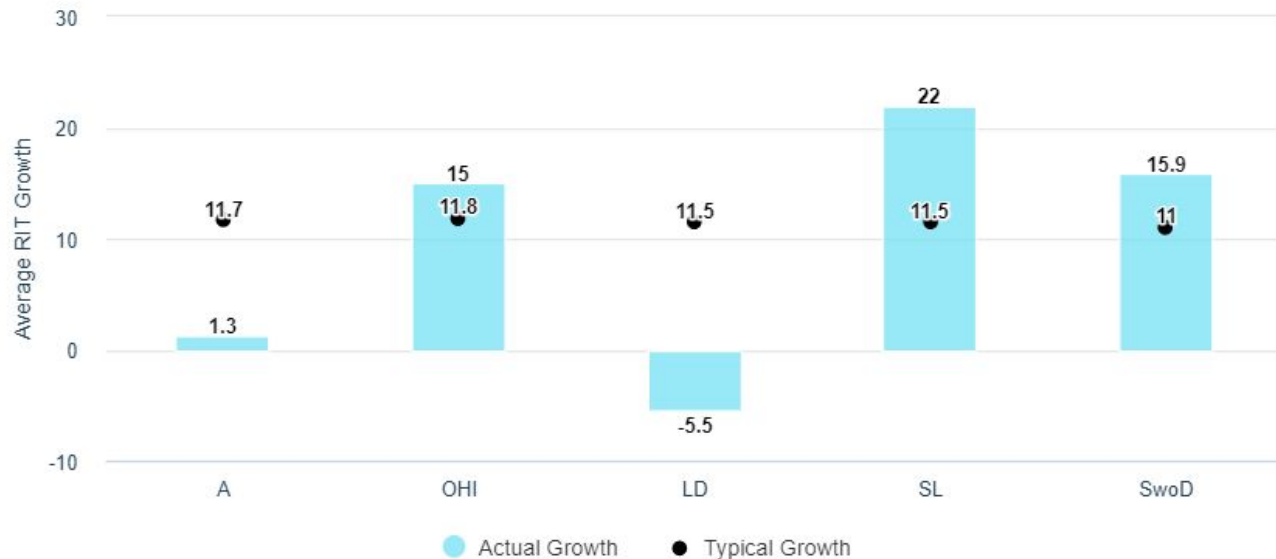

ALL current 3rd Grade students with disabilities exceeding MAP Math Fall to Fall Mean RIT Growth

2021-22 MAP Fall to Fall Growth in Math K-12 for Grade 3 by Reporting Disability

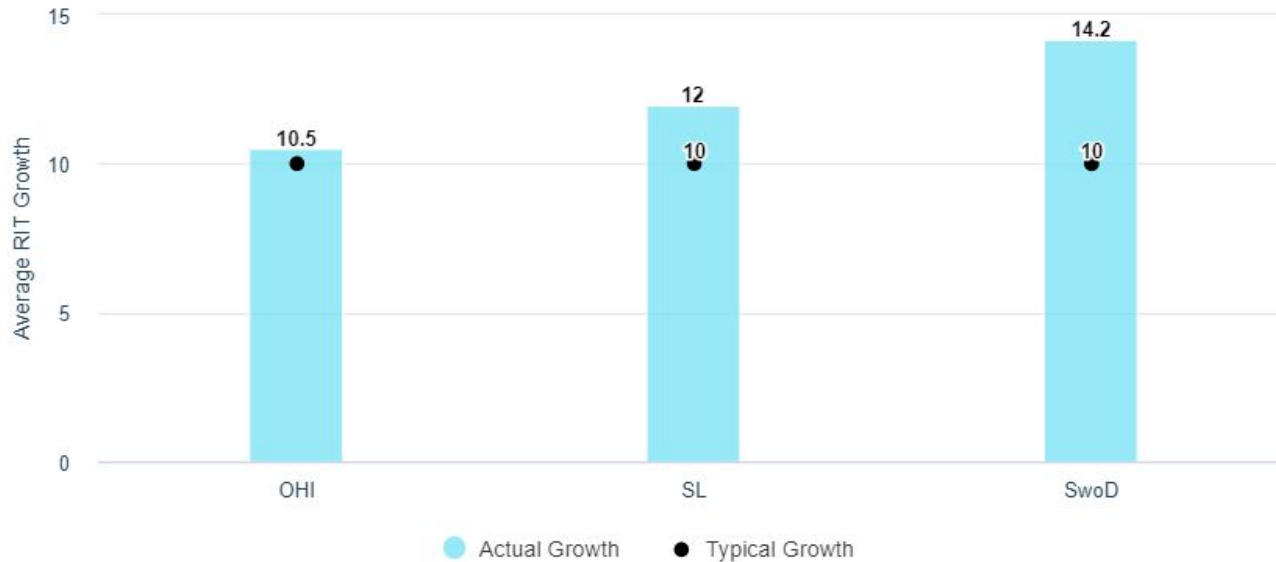

Some current 4th grade students with disabilities exceeding MAP Math Fall to Fall Mean RIT Growth

2021-22 MAP Fall to Fall Growth in Math K-12 for Grade 4 by Reporting Disability

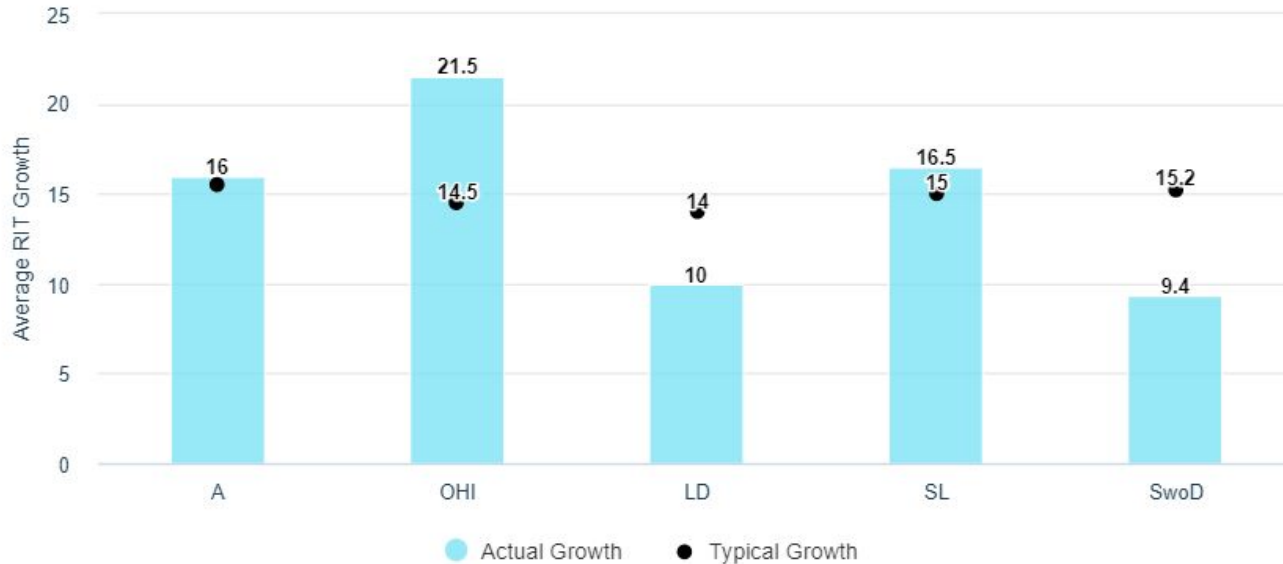

All current 5th Grade Students with Disabilities exceeding Mean Fall to Fall Math MAP Mean RIT Growth

2021-22 MAP Fall to Fall Growth in Math K-12 for Grade 5 by Reporting Disability

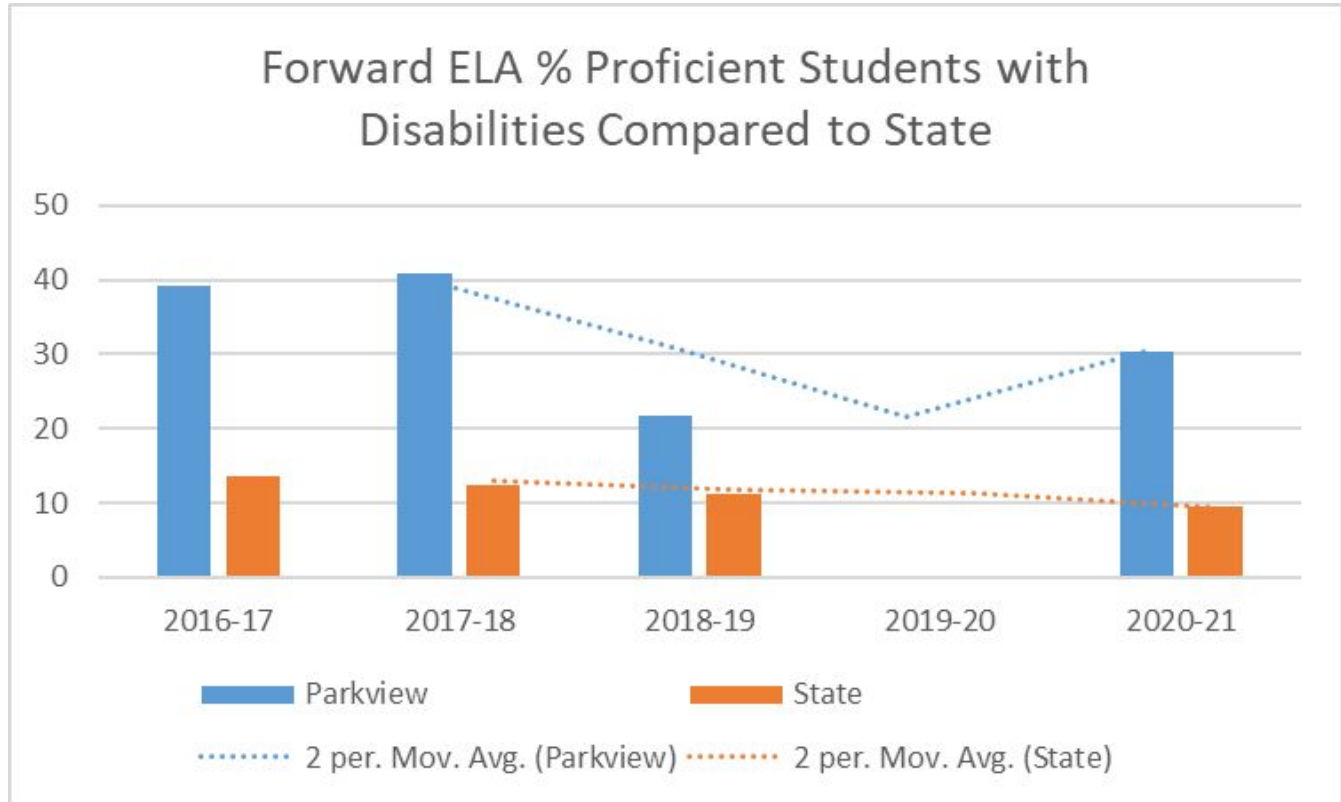

Most current 3rd grade students with disabilities exceeding mean fall to fall reading RIT growth

2021-22 MAP Fall to Fall Growth in Reading for Grade 3 by Reporting Disability

We are beginning to see progress toward closing the achievement gap in ELA between students with disabilities and without disabilities

We are beginning to see progress toward closing the achievement gap in MATH between students with disabilities and without disabilities
