### Monthly Leaders of Learning Collaborative Team Meetings

- This collaborative team includes district and campus leadership. We meet monthly (more if needed) and focus on building shared knowledge about the PLC process.

### Monthly Principal Data Meetings

- Principals compile and share campus data monthly with the Superintendent and Director of Learning Services. This provides an opportunity for this team to build shared knowledge about types of data, effective data analysis, and how data is used to improve student learning.

### Weekly Campus Learning Coordinator Collaborative Meetings

- These meetings are focused on learning about the PLC process at a deep level that will provide CLCs with knowledge and skills needed to support the PLC process. This team meets weekly for a full or half day, depending on need.
