

Our building has worked with a local artist and retired art teacher to build graphics for each year to help us remember our **Purpose**, the student's **Path**, collaborative **Product** and continual **Praise**. We call these the FOUR P's and you will see them on tops of agendas, stenciled on walls and of course represented in our wall murals (shown to the left). The first P – Purpose is met by responding to the 4 PLC questions. We have the four questions on the top of grade level agendas as well.
