

2019 - 2020:

- Gave quarterlies but summaries were turned in on paper.
- From March 2020 to June - focus was to move to virtual learning; get devices in the hands of students; ensuring that families are getting food; connect with students and families we haven't heard from.

2020-2021:

Began to use a Google form to collect summary information

- Teachers would fill in the information that was on the paper into a google form that would generate a spreadsheet with data
- Normally at the high school we give 3 quarterlies and the 4th is the regents state exam - we gave the 4th quarterly.

2021-2022:

- Continued to use the quarterly form and collect data
- Did only 3 quarterlies and the State Test resumed
