## Science Team Norms

<b>Behavior</b> (If this occurs in a group it makes for a negative experience)	<b>Desirable Counter-Behavior</b> (Team Norm)
Being impatient; negative attitude	Patience and positivity; bring solutions
Resistance to work	Embrace the process, participate, be open to new learning
Taking discussions personally	Group time is a safe haven for discussions; no personal attacks, support each other, reflective listening, positive feedback
Getting off task; having side conversations	Staying focused, being present
Not valuing group work and group time (late, not prepared, no-show)	Be prepared, being on time, being present in conversations
One person controlling discussion	Being sensitive and open to others' ideas
