Next Action Steps:

- **PLCs and Reteach/Enrichment Lesson Planning:** Tabby will soon be supporting science data PLCs that result in initiating the 3rd – 5th grade teachers to develop lesson plans based on CBA data for the reteach/enrichment time embedded in the Science Scope and Sequence on Jan. 5th and 6th.
- **Campus Admin. Science Walks on Jan 5th and 6th:** It would be a huge support if you or your APs could walk 3rd – 5th science classes on Jan 5th and 6th to see the plans implemented.
- **District/Campus Admin. Science Walks and Training Support:** The next opportunity for growth that we had identified for 5th grade was Unit 11 - Fossil Fuels and Sedimentary Rocks coming up Feb.
 - **We are scheduled to walk Feb. 21st from 8:30 – 10:00 to see this unit in action**
 - Tabby will be working to support teachers in preparing for this unit
 - There is also a training opportunity for this unit on Jan. 31st from 4-5
