Please note: State assessments are given in English and Mathmatics each year. Science is given in 4th and 8th grade. No History state assessments are given until high school. No state assessments were given in 2020 due to the COVID-19 Pandemic. We do not have enough students in the ELL category to report as a subgroup. Also, many of our 8th graders take the Algebra Regents instead of the New York State Math Assessment to receive high school credit. They are not included in this data.

Directions: Please fill out as much of this data table as possible. If you do not have state level data for any of the individual areas, please shade the corresponding box dark gray. Remember that you are required to include at least three years of data for all grade levels served by your school. You are also required to include data that shows the progress being made by students in subgroups traditionally underserved by schools.

For a model of a completed data spreadsheet, click here.
